FRITZ!Box 7490

[MyFRITZ!] [FRITZ!NAS] ⋮

Internet > Account Information   ?

| Internet Connection | IPv6 | LISP | AVM Services | DNS Server |

◉ Establish own connection to the internet
The FRITZ!Box disposes over its own IP address range. The firewall remains enabled.

○ Share existing internet connection in the network (Mesh Wi-Fi / IP client mode)
The FRITZ!Box becomes part of the existing home network and takes over this IP address range. The firewall of the FRITZ!Box is disabled. If the other router that spans the home network is also a FRITZ!Box with Mesh Wi-Fi functionality, this FRITZ!Box can become part of the Mesh Wi-Fi.

Account Information

Is account information required?

◉ Yes

Enter the internet account information you received from your internet service provider.

Username   [fti/xxxxxx]

Password   [••••]

○ No

Connection Settings

The connection settings are already set to the most frequently used values. You can change these values if needed.

Data Throughput

Enter the speed of your line. These values are required to secure the prioritization of the network devices.

Downstream   [1000] Mbit/s

Upstream   [1000] Mbit/s
